1988 Article Index

Mechanical Design

John Swanson: Still Working on Ansys, A, January, p. 46
Ridding Cars of Rattles, N, February, p. 8
Designing for Global Markets, A, February, p. 36
Finite-Element Advancements, A, February, p. 65
CAD/CAM Keeps Snowmobile Maker on Track, A, February, p. 73
VersaCAD: Macintosh Edition, A, March, p. 42
Jim Meadlock: Intergraph's Decisive Boss, A, March, p. 44
Engineering Animation, A, March, p. 52
FEA Comes of Age, A, March, p. 62
On the Edge of an Engineering Revolution, D, April, p. 66
Team Lotus Taps CAD in Winning Formula, D, May, p. 22
Finally, AutoCAD Runs on the Mac, D, May, p. 26
CAD Puts Tire Maker on Track, A, May, p. 30
Sorting Out Solid Modelers, A, May, p. 82
RVs Built with PC CAD, N, July, p. 6
Small Contractor Tackles Tough Jobs, D, July, p. 22
Where MCAE Pays Off, A, July, p. 34
Wilson Racks Up Winning Designs, D, August, p. 18
Bargain CAD, A, August, p. 42
No-Hassle User Interface, A, August, p. 68
Tolerancing: Common Thread of MCAE?, D, August, p. 74
Simulating Ford's Engines, N, September, p. 6
Parametric Design with Solids, A, September, p. 36
Nonlinear Analysis with Finite Elements, A, September, p. 52
What's MCAE?, D, September, p. 74
Intergraph Customers Loyal, D, October, p. 47
Integration Takes Top Billing at Autofact, A, October, p. 48
Ford's Better Idea, A, October, p. 158
CAE: The Problems and the Promise, D, October, p. 189
Autosolid Targets Mechanical Design, D, November, p. 30
Networks for Mechanical CAD, A, November, p. 47
Soft Instruments for the Test Lab, A, November, p. 55
Another Step in CAD's Revolution, D, November, p. 156

Manufacturing

CIM Tools Customize Trucks, D, January, p. 16
Shop-Floor PCs Expanding Role, A, April, p. 34
CAD-to-CMM Link Produces Precise Airfoils, D, June, p. 26
IBM Gets Serious about CIM, D, June, p. 75
Integrating the CIM Database, A, June, p. 78
"Downstream" Design in Detroit, D, July, p. 80
Integrating Manufacturing, A, August, p. 20
Building CIM with Distributed CAD, N, November, p. 8

Electronics Design

PCs Tackle the Tough Ones, D, April, p. 38
Packaging Printed Circuits, A, May, p. 72
Integrated Analysis for PCBs, A, May, p. 78
Tek Integrates PCB Manufacturing, A, May, p. 97
Acquisition Fever Hits EDA Industry, D, July, p. 64

AEC

Made in the Shade, A, January, p. 18
Taking AEC to 3D, A, January, p. 20
PCs at Samsonite, D, February, p. 34
AEC Firm Moves to IBM RT's, D, April, p. 24
Integrating Data in Design & Construction, A, April, p. 26
3D Modeler for Mega Projects, N, August, p. 8
Bringing Mapping to the Masses, A, November, p. 30
PC-Based FEA Tests Bridge Design, D, November, p. 28

Computers

Workstations Shift into High Gear, A, January, p. 36
Data Thieves Worry PC CAD Users, A, January, p. 54
Super PCs, A, February, p. 56
"X": A Window on the Future, D, February, p. 94
NCGA '88 Sets Stage for Systems Integration, A, March, p. 28
Improving Phigs for Workstations, D, March, p. 96
New 3D Graphics Platforms, A, April, p. 34
Workstations Move into Factory Automation, D, May, p. 94
Linking Workstations, A, June, p. 64
Apollo's New 68030 Stations, N, July, p. 6
Fast Hardware for Solid Modeling, A, July, p. 42
Top Speeds for PC CAD, D, August, p. 38
Linking Micros to Mainframes, A, October, p. 82
Silicon Graphics Shows Its Hand, D, November, p. 28
Workstations Change Role of File Servers, D, November, p. 88

Peripherals

The True Cost of Color Electrostatic Plotting, D, January, p. 74
Sorting Out PC Graphics Cards, A, February, p. 48
Electrostatic Plotter Linked to 45 PCs, D, March, p. 26
Improved Data Entry for CAD, A, March, p. 70
Modems Connect PCs to the World, A, April, p. 62
Hardcopy Equipment, A, June, p. 38
Keeping CAD Hardcopies, A, August, p. 77
Service Bureau Expands with Color Plotting, D, September, p. 20
Hardcopy Supplies, A, September, p. 28

Office Applications

Apollo Links Technical Publishing to Engineering, A, January, p. 28
Technical Illustrating at TRW, D, January, p. 64
Trimming Documentation Costs, D, February, p. 80
Management Graphics Trends, D, March, p. 82
Computerized Project Management, A, April, p. 46
CIM and Smart Documentation, D, April, p. 68
Managing Engineering Data, D, April, p. 82
Data Management Saves $500,000, D, May, p. 106
Desktop Publishing, A, June, p. 28
FAX Dispatches CAD Drawings, D, June, p. 90
Electronic Publishing Boosts Productivity, D, July, p. 69
E-Mail for Engineers, A, September, p. 42
Exchanging Information Electronically, D, September, p. 62
Handling Document Revisions, A, October, p. 166
Technical Word Processors, A, November, p. 109

Management Issues

Issues in '88: Standards and Integration, D, January, p. 60
A New Order?, D, February, p. 78
The Decomposition of CAD/CAM, D, March, p. 80
Why IGES?, D, May, p. 118
Keeping Track of Designs, A, June, p. 80
Don't Avoid CIM Cost Justification, D, June, p. 106
Turnkey CAD: Alive and Well, A, September, p. 22
The Operating System Quandary, D, September, p. 60
Inside GM's C-3 Strategy, N, October, p. 6
Ten Trends for the 1990s, A, October, p. 60
CAD/CAM Planning Guide, A, October, p. 90
Graphics Libraries Come of Age, A, November, p. 67
Sales Soar in '88, D, November, p. 120
Smart Drawing Management, D, November, p. 122
